

Quarterly Operations Review

Summary

Throughput improved across every region this quarter, with the northern territories accounting for the larger share of the gain. The figures below are drawn from the regional ledgers and have not been adjusted for seasonal variation, which typically flatters the second half of the year.

Regional detail

Region	Units	Change
Northern territories	12,480	+18%
Southern territories	9,240	+4%

Notes

Figures are *provisional* and subject to revision. Contact the **operations desk** with corrections.

Adjustments applied after the ledger close are listed separately.
